

ALPACA & LLAMA RANGE

Est. 1854

Osmonds

ANIMAL NUTRITIONISTS & VETERINARY SUPPLIERS

Established in 1854, Osmonds have been manufacturing and supplying quality animal health products and in doing so providing healthcare and nutritional solutions for animals for over 160 years. For 2014 a new fresh look has been introduced for the great quality products that you have come to trust and rely on.

Osmonds continue to manufacture their best-selling premium Alpaca Colostrum Supplement, used and relied upon by many breeders to ensure young-stock get the best start in life.

An Alpaca & Llama specific drench has been introduced to the range, designed specifically to deliver balanced nutrition and help maintain optimum performance.

A further addition to the range is a specific liquid electrolyte on a fast acting high energy base, for the replacement of lost salts, fluid and energy, particularly valuable when travelling or showing, in hot weather and at times of stress/illness.

Please browse the brochure for Osmonds full range of quality products that you can trust. If you have any questions regarding the Osmonds Alpaca & Llama range please contact us; we are always happy to assist.

ALPACA & LLAMA COLOSTRUM SUPPLEMENT

A premium colostrum supplement containing essential nutrients for optimum health and vitality in the new-born.

- Contains Pure Dried Colostrum, Dextrose, vitamins and balanced levels of fats and proteins alongside a bio-probiotic for enhancing early digestive functions.
- Contains Nucleotides "the building blocks of life" to provide even more protection for the newborn.

FEEDING RATES

To help boost Colostrum quality simply mix with clean warm (38°C) water, shake well and feed preferably within 5 hours of birth. It is recommended that 60g be fed as soon as possible after birth – this can be fed in 6 x 10g feeds.

Always ensure fresh drinking water is available
