First choice for generations

Biotin Liquid

Osmonds Biotin Liquid provides an optimum level of 10mg Biotin per horse per day and is an ideal supplement for horses suffering from weak or cracked hooves or crumbling hoof walls.

Daily inclusion in the diet may support optimum growth of hoof structures allowing the hoof to bear weight correctly thus helping support correct movement of the lower limb.

Formulated on a palatable and appetising base of honey to ensure even the fussiest eaters receive the required amount of Biotin daily.

Daily Feeding Instructions

15-30ml depending on size.

Benefits

- Biotin helps in the production of keratin sulphate - important in the maintenance of hoof.
- A low level of Biotin in the diet can be linked to poor growth, weakened keratinisation and changes to the condition of skin.
- Methionine is an Amino Acid containing sulphur and is involved in the metabolism of fat, protein and carbohydrate and is an essential part of an Equine's diet.
- Zinc is important in maintaining epidermal tissue especially in hooves and coats.
- Honey base for increased palatability - great for fussy eaters
- 30ml will provide 10mg Biotin.

Analysis

Biotin 352mg, Methionine 200mg, Zinc (as sulphate) 400mg, On a Honey base.

Bloodstock & Youngstock Supplement

Osmonds Bloodstock & Youngstock Supplement is a balanced powdered supplement rich in Copper, Calcium and other key Minerals specifically formulated for Breeding Stock. Bioplexes are included to ensure optimum availability of minerals.

Ideal for Broodmares of all types along with foals post weaning, yearlings and Youngstock to 3 yo. May also be of benefit to late maturing 4 and 5 yos.

Daily feeding may help support the correct formation of bone and cartilage which is vital to ensure ultimate performance at the peak of the horse's ability.

Daily Feeding Instructions

Broodmare - 1 Scoop (120g), Yearling / 2yo - 2/3rd Scoop (85g), Foal - 1/3rd Scoop (40g), Bulk Mixing - 1.36kg / 50kg.

Benefits

- Calcium is required for correct growth, development and strength of the skeleton - the combined balanced ratio of Calcium: Phosphorous supports the development of the skeleton in growing horses.
- Calcium helps in the formation of bone, cartilage and hair pigmentation.
- Gives a better start to life for foals.
- Essential feeding for the in-foal mare, newly foaled mare and the foal itself.
- Perfectly balanced - can be fed all the way through the breeding cycle.
- Inclusion of Bioplexes improves nutrient absorption and ensures the horse receives all available nutrients.

Do not feed any other minerals.

Joint Supplement

Osmonds Joint Supplement is a liquid supplement providing a recommended 10g Glucosamine along with MSM, Chondroitin and antioxidant support.

Ideal supplement for horses that may suffer from joint degeneration and associated problems, along with older horses.

Excellent for horses exposed to high levels of concussive force.

Daily dietary inclusion may help support the joints of horses and maintain correct function.

Analysis per litre

Glucosamine 334g, MSM 10g, Chondroitin 20g, Vitamin B² 50mg, Vitamin B⁶ 60mg, Vitamin B12 2mg, Nicotinamide 250mg, Vitamin C 30g, Vitamin E 6g.

Daily Feeding Instructions

(add directly to feed as required), 15 - 30ml in the feed depending on size of horse / pony.

Benefits

- Highly palatable and easily absorbed.
- MSM is a source of organic sulphur which is an essential component of connective tissue, skin, hooves and amino acids. Sulphur from MSM is used in the formation of many protein rich structures within the body.
- Glucosamine is a key factor in the production of glycosaminoglycans - essential in collagen and connective tissue production and also composes over half of Hyaluronic Acid - found within the joint structures.
- Chondroitin's primary function is to inhibit degradative enzymes contributing to cartilage breakdown.
- Cost effective - from 24p - 48p per horse per day dependent on size.
- Can swap straight over from competitor product without any problems.

Osmolyte

Osmonds Osmolyte is a liquid electrolyte formulated for daily feeding.

Osmolyte is an essential part of the diet for performance horses and daily use may help speed up the return to optimum condition after competition or heavy work thus allowing the horse to recover faster and perform at maximum levels without a loss of performance.

Analysis per litre

Sodium (as Chloride) 25g, Calcium (as Chloride) 25g, Magnesium (as Chloride) 5g, Potassium (as Chloride) 5g, Chloride 38g, Vitamin E 4000mg, Zinc (as Chloride) 4g, Selenium (as Selenite) 2.88mg, Copper (as Sulphate) 1mg.

Daily Feeding Instructions

(In the Feed or in clean drinking water which should be available at all times)

Maintenance 60ml, Competition 120ml, Heavy Training 120ml.

Benefits

- Contains high levels of the minerals Sodium, Chloride and Potassium - vital for the regulation of the acid base balance, and Magnesium and Calcium - for nerve and muscle function.
- Contains Zinc, Vitamin E, Selenium and Copper - helps ensure vital elements are supplied to help maintain correct muscle function.
- Palatable - molasses base.
- Liquid - more easily absorbed.
- Ensures the horse receives sufficient levels of electrolytes after exertion and this may help avoid the loss of essential salts allowing faster recovery and maximum performance.
- Can swap straight over from competitor product without any problems.

Feed daily to horses in medium to hard work (in evening feed).

Feed after heavy training or competition.

Ensure clean drinking water available at all times.

Respiratory Supplement

Osmonds Respiratory Supplement is a unique liquid supplement for support of the respiratory system in both performance and older horses with compromised respiratory function.

Respiratory Supplement contains natural ingredients to soothe the airways, maintain lung integrity and also support the removal of mucus from the respiratory tract.

Daily Feeding Instructions

15 - 30ml depending on size of the animal in the feed / via syringe.

Contains

Menthol
Eucalyptus Oil
Echinacea Oil
Garlic Oil
Aniseed Oil
Honey
Apple Cider Vinegar

Benefits

- Completely unique product.
- Helps increase capacity to breathe.
- Helps support Equine's own natural lung defence system.
- Less lung irritation from stable dust, moulds, irritants and allergens.
- Assists in cleaning airways and less nasal irritation.
- Palatable and easily absorbed.

Add to the feed daily (can be applied directly to hay / haylage) or give directly to the horse via a syringe into the back of the mouth. May also be used immediately prior to exercise.

Ultimate

Osmonds Ultimate is an oil based vitamin, mineral & trace element supplement on a Seaweed base with VETOXAN and Diamond V Yeast.

An excellent all-round feed supplement with numerous health and performance providing benefits.

Benefits

- High specification in comparison to competitor products.
- Seaweed base - containing high levels of naturally occurring nutrients.
- 10% Oil (Rapeseed) to help improve bloom and waterproof the coat.
- Contains Omega 3, 6 & 9 Factors to help assist with growth and development and also beneficial properties for a healthy immune system function.
- Vetoxan and Diamond V Yeast to help improve the hindgut bacteria and assist in eliminating digestive upsets thus stabilising the digestive system.
- Nutrimin to help utilisation of feed and to bind with toxins i.e. ammonia etc and carry them out of the system.
- Economical in use.
- Can be fed to animals competing under FEI and Jockey Club Rules.

Due to High Iodine levels we do not recommend Ultimate is fed to in-foal Mares

Shampoos & Conditioners

The Groomers' Choice Range of Shampoos are made of natural ingredients and are therefore mild and gentle on the Animal's hair and coat. The shampoos are concentrated, and should be diluted 1 - 10 before use. This benefit means a good coverage of the Shampoo is obtained, and less time (and water) is needed in order to rinse out the lather.

Coconut Shampoo

Contains coconut oil. Will thoroughly cleanse the most awkward of coats. Dilute up to 10 to 1.

Tea Tree Oil Shampoo

A gentle shampoo. Ideal for dry or sensitive skin. Naturally anti-bacterial, anti fungal and anti-septic qualities. Dilute up to 10 to 1.

Lavender Shampoo

Lavender Oil is widely renowned for its properties as an insect repellent. Lovely smelling. Leaves coats soft and manageable. Dilute up to 10 to 1.

Red Shampoo

Deep cleansing shampoo. Good for stubborn coat stains such as urine and grass. Great for use on coloured horses. Dilute up to 10 to 1.

Black Velvet Shampoo

Helps enhance black and dark coloured coats. Contains optical brighteners. Dilute up to 10 to 1.

Polar White Shampoo

Helps enhance white and light coloured coats. Contains optical brighteners. Dilute up to 10 to 1.

Burnished Bronze Shampoo

Helps enhance brown, red and chestnut coloured coats. Contains optical brighteners. Dilute up to 10 to 1.

Luxury Shampoo

A Luxury Conditioning Shampoo. Leaves coats with a lovely sheen. Dilute up to 10 to 1.

Crème Rinse Conditioner

A lovely crème conditioner. Especially good for long hair and hair prone to tangling. Long lasting - great value for money - designed for use with Osmonds Groomers Choice Shampoos.

Show Coat Conditioner

Luxury Coat Conditioner Spray. A high quality grooming aid that will leave the coat in top condition. New improved formula. Can be used on wet or dry hair. Available in 1 litre Ready to Use spray, and 3 refill sizes.
