

Vaccadyne

The Original Vaccadyne — Effective Red Udder Grease

- Original Formulation product - now over 100 years old
- A formula of natural cleansers and moisturisers
- The gentle action helps protect Udders and Teats - massage gently into Udder as required
- Helps protect against flies and infection when tagging, de-horning etc.
- Excellent also for cracked hands and skin
- Effective healing properties when used on cuts or abrasions.

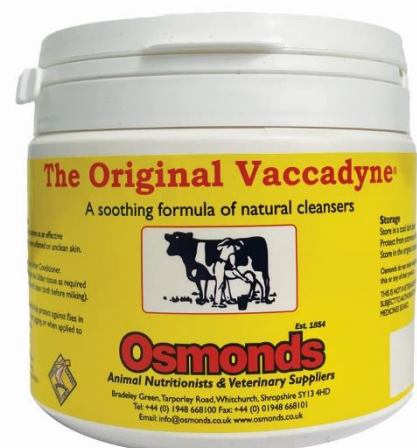

Directions

Use Vaccadyne at the first sign of hard, sore, inflamed or unclean skin.

Best results are obtained if used regularly.

Massage gently into udder and teats after milking or as required

Wipe Vaccadyne from the teats with a clean cloth before Milking
