

Premium Brand Calf Colostrum

A Colostrum supplement complimentary feed, for the new born calf that is either deprived of, or deficient in colostrum from its mother.

- A complete feed for new born calves.
- Colostrum sourced from BVD (Bovine viral diarrhoea) free herds.
- Guaranteed JOHNES DISEASE, EBL and TB free.
- Contains 100% pure dried EU colostrum.
- Designed to boost the calf's immune system.
- Helps maintain a high health status in the calf.
- Reliable, fast and easy to use, low oil content for easy mixing.
- Mimics the calfs mothers' colostrum.
- Energy comes from Glucose, Dextrose and Lactose, easy to absorb, readily available giving an instant energy boost.
- Contains Vetoxan Probiotic to enhance the digestive system.
- Nucleotides included giving the calf the best start in life.

Features & Benefits

Feature	Advantage	Benefit
Egg powder	Enhances the passive immunity	Improve disease resistance
Low Oil content	Very easy to mix, no separation/lumps	Easy to use/ administer
High in glucose, dextrose and lactose	Readily available and easily digested energy sources for the neo natal calf	Improve calf survival
Contains Nucleotides	Promotes early growth	Gives the calf the best start in life
Contains Pre/Probiotic	Encourages a healthy digestive tract and promotes gut function	Promotes Calf health

Retailer Tip

- Feed to the calf as soon as possible after birth, ideally before the calf is 6 hours old.
- It should be fed either by a teated bottle or a stomach tube to avoid the colostrum entering the lungs.
- After mixing Osmonds premium brand calf colostrum it may be stored in a thermos flask for up to 24 hours, however shake well before re-using.
- One feed of Osmonds premium calf colostrum should be enough, and calves can either then continue suckling their mother or go onto a high quality milk replacer. For small, sick, or poor doing calves further feeds of Osmonds calf colostrum can be given up to 2-3 days of age if necessary.

Presentation

Creamy white powder.

Composition
