

## Premium Brand Lamb Colostrum

**A Colostrum supplement complimentary feed, for the new born lamb that is either deprived of, or deficient in colostrum from its mother.**

- A complete feed for new born lambs.
- Contains 100% pure dried EU colostrum.
- Designed to boost the lambs' immune system.
- Helps maintain a high health status in the lamb.
- Reliable, fast and easy to use, low oil content for easy mixing.
- Mimics the lambs' mothers' colostrum.
- Energy comes from Glucose, Dextrose and Lactose, easy to absorb, readily available giving an instant energy boost.
- Contains Vetoxan Probiotic to enhance the digestive system.
- Nucleotides included giving the lambs the best start in life.

### Features & Benefits

Feature	Advantage	Benefit
Egg powder	Enhances passive immunity	Minimise the risk of mortality and maximise the protection from disease
Low Oil content	Very easy to mix, no separation	Easy to use/ administer
High in glucose, dextrose and lactose	Readily available and easily digested energy sources for the neo natal lamb	Instant energy boost for the lamb, whilst being gentle on the immature gut
Contains Nucleotides	Promotes early growth	Gives the lamb the best start in life
Contains Pre/Probiotic	Encourages a healthy digestive tract and promotes gut function	Promotes Lamb health

### Retailer Tip

- Feed to the lamb as soon as possible after birth, ideally before the lamb is 5 hours old. This is because up to 5 hours 98% of all antibodies ingested can pass through the stomach wall, by 12 hours this figure is only 50%, by 24 hours 10% and after 36 hours only 2%.
- It should be fed either by a teated bottle or a stomach tube to avoid the colostrum entering the lungs.
- After mixing Osmonds premium brand lamb colostrum it may be stored in a thermos flask for up to 24 hours, however shake well before re-using.
- One feed of Osmonds premium lamb colostrum should be enough, and lambs can either then continue suckling their mother or go onto a high quality ewe milk replacer. For small, sick, or poor doing lambs further feeds of Osmonds lamb colostrum can be given up to 2-3 days of age if necessary.

### Presentation

Creamy white powder.

### Composition
