

Premium Brand Calf Colostrum Booster Supplement

Osmonds Premium Calf Colostrum Booster Supplement is an easily mixed powder product containing pure dried Colostrum from hyper immunised Cows.

- *Feed to calves that have been bred to first or second calvers as it is well documented that Colostrum from these cows is low in health providing factors leading to increased health issues for calves.*
- *Helps maintain a high health and immune status in new born calves*
- *Easy to use, easily mixed, use with confidence*
- *Provides health and energy providing nutrients*
- *Contains Nucleotides - the building blocks of life to help give calves the best start in life*
- *Supplied in easy to use 12 x 500ml (100g) bottles*

Feeding Instructions

Simply add clean warm 37°C (not hot) water to the bottle contents (100g) and feed to new born calves in need of Colostrum Supplementation
Feed preferably within 5 hours of birth and before the calf sucks the Dam
