ANIMAL NUTRITIONISTS & VETERINARY SUPPLIERS

We believe the best way to understand the value of our products is through the testimonials of our customers who use them every day.

*"I use **Sustain** as it's a great product and packed full of the essential nutrients to give new lambs an instant boost of energy. What makes Sustain a great product is that it's very easy to use. It's clear that it was put together by someone with real experience in lambing. I wouldn't go into lambing season without it — highly recommend!"*

Aled Hughes - @bald_shepherd

"Since using Osmonds products I have seen significant results at a great price, Osmonds products are always easy to use and the customer service is second to none.

Osmonds keep my pedigree show flock in the best condition and I wouldn't use anything other!

*My go to products are **Muscle Master, Lamb Sustain, Colostrogard** and the **Lamb Lifesaver Syringes!**"*

Ellie Van Der Mere - @frickleyflock

*"We've really loved using the **Lifesaver Syringe** during lambing—it's given the lambs the boost they need to thrive from the start. We've found **Osmonds Premium Brand Colostrum** to be the best we've ever used. Paired with the **Lifesaver Syringe**, it has made this our most successful lambing season so far."*

Ella Fickling - @birkwith_flock

*"I really like Osmond's products because they have clear, easy to understand ingredients list so you know exactly what you're giving to your stock. The **Insta-life** and **Lamb Lifesaver Syringes** have been great for poorly lambs to give them a nutritional boost. The **Selenium/Cobalt Drench** is very cost effective as it is very concentrated meaning a small bottle goes a long way. I also appreciate how good the customer service is, Osmond's have always been happy to help and chat!"*

Victoria Hedges - @whitadderwoodlands

Sheep

Twin Lamb Supplement is a Fast acting energy supplement to meet the nutritional demands of in-lamb Ewes carrying twins / multiple lambs. Contains Triple Glycol, Glycerine & Vetoxan®.

TWIN LAMB SUPPLEMENT

- Provides a high level of essential energy to rapidly increase blood glucose levels.
- The glycerine/emulsified fats give instant energy.
- Helps allow the ewe's metabolism to resume normal working function.
- Easy to administer in a single ewe dosing bottle, no need to measure out.
- Contains Vetoxan® to improve digestion of normal feeding during this period.

FEEDING INSTRUCTIONS:

Shake well before use, Feed 100ml to the Ewe at times when an extra energy boost is needed. Repeat if found necessary.

AVAILABLE IN PACK SIZES:

12 x 100ml
 1 litre (10 ewe feeds)

Fast Acting

ADOPTA-LAMB

A 100% natural and organic product containing a synergistic blend of naturally occurring beneficial micro-organisms and enzymes.

- Naturally breaks down the organic waste materials on the lamb rapidly removing the organic based odours and scents on the lamb that are often the cause for rejection by the fostering Ewe.

INSTRUCTIONS:

Spray liberally all over the lamb ensuring the liquid covers all parts of the lamb. Leave for approximately 30 seconds before introducing the lamb to the foster ewe.

Please Note: for best performance of Adopta-lamb do NOT use in conjunction with chemicals or product efficacy may be impaired.

AVAILABLE IN PACK SIZE:

500ml spray

LIFESAVER LAMB SYRINGE

A double strength supplementary feed, for the new born lamb that is either at risk of bacterial infections or has a digestive upset.

- Easy to administer.
- Double strength to help boost the lambs immunity.

- Helps maintain a high health status in the lamb.
- Helps the lamb to resist infectious pathogens that cause lambs to scour.
- Reliable, fast and easy to use.
- Contains Vetoxan Bio-probiotic to promote healthy gut flora.

FEEDING INSTRUCTIONS:

Feed 3-5g per lamb - preferably before the lamb sucks the Ewe.

AVAILABLE IN PACK SIZES:

1 x 15g syringe
 25 x 15g syringe
 50 x 15g syringe

PREMIUM BRAND LAMB COLOSTRUM SUPPLEMENT

A colostrum supplement feed, for the new born lamb that is either deprived of, or deficient in colostrum from its mother.

- A complete feed for new born lambs.
- Contains 100% pure dried EU colostrum.
- Designed to boost the lambs' immune system.
- Helps maintain a high health status in the lamb.
- Reliable, fast and easy to use, low oil content for easy mixing.
- Mimics the lambs' mothers' colostrum.
- Energy comes from Glucose, Dextrose and Lactose, easy to absorb, readily available giving an instant energy boost.
- Contains Vetoxan Bio-probiotic to enhance the digestive system.
- Nucleotides included giving the lambs the best start in life.

FEEDING INSTRUCTIONS:

Mix 25g (1 heaped measure) of Lamb colostrum with 120ml of lukewarm water (37°C) then whisk/stir well. Do not use hot water or heat in a microwave. For optimum results feed to the Lamb within 5 hours of birth, only one feed is normally required.

AVAILABLE IN PACK SIZES:

- 1x 25g sachet
- 12 x 25g sachets
- 10 Lamb (250g)
- 20 Lamb (500g)
- 40 Lamb (1 kg)
- 80 Lamb (2 kg)
- 160 Lamb (4 kg)
- 400 Lamb (10 kg)
- 800 Lamb (20 kg)

COLOSTRO GUARD PASTE SYRINGE

A Colostrum-rich paste for newborn, designed to supplement natural colostrum. Contains pure spray-dried colostrum and a readily available energy source, absorbed quickly and utilised efficiently. Particularly useful for outdoor lambing and during weather challenges.

Tiered pricing discounts available online www.osmonds.co.uk

- Contains pure Colostrum for concentrated nutrition.
- Rapid absorption for quick utilisation.
- Fortified with essential Vitamins and Trace Elements.
- Includes Prebiotics for digestive health support.
- Quick & easy to administer.
- Feeding Instructions.
- Feed each lamb 4ml or calf 15ml orally soon after birth.

AVAILABLE IN PACK SIZE:
1 x 60g syringe

"Have used osmonds colostrum for years and will continue to do so great piece of kit to have at lambing season for that lamb lacking a bit of umph!" Jane C

LAMB INSTA-LIFE

A fast acting liquid energy feed for lambs at birth. Particularly suitable for lambs that are small, weak, lethargic, cold and lack the strength to suckle.

FROM ONLY
16p per
Lamb

- Fast acting energy generating substrates, turns round unviable lambs in minutes.
- Easy to use/administer liquid energy feed.
- Emulsified Vitamins for rapid absorption.
- Fast acting and phased energy source.
- Boosts the lambs' intake of Colostrum derived immunoproteins and micro nutrients to help resistance to disease factors.

- Helps control infections – ie e-coli (watery mouth).
- Contains Vetoxan Bio-probiotic to aid gut function.

FEEDING INSTRUCTIONS:

Shake well before use, place the nozzle towards the back of the lambs tongue and feed 2ml of Insta-Life (1 pump) as soon as possible after birth. Repeat if necessary. 250ml = 125 x 2ml lamb feeds.

AVAILABLE IN PACK SIZES:
250ml refill (no pump)
250ml top unloading pump

"Always get good results" Emma B

SUSTAIN

A fast acting liquid booster feed for lambs at birth. Particularly suitable for lambs that are exposed to lambing pen infections, i.e. e-coli (watery mouth).

- Helps make lambs less susceptible to illness, by boosting their nutritive and immune status.
- Easy to use/administer liquid booster feed.
- Fast acting and phased energy source.
- Helps fight infections i.e. E-Coli (watery mouth).
- Contains Vetoxan Bio-probiotic to aid gut function.

FEEDING INSTRUCTIONS:

Shake well before use, place the nozzle towards the back of the lambs tongue and feed 4ml of Sustain (2 pumps) as soon as possible after birth. Repeat if necessary. 250ml = 62 x 4ml lamb feeds.

AVAILABLE IN PACK SIZES:
250ml refill (no pump)
250ml top unloading pump

"Would very much recommend this product to help prevent wet mouth and give lambs the start they need."

Steph W

A Natural
Alternative
to Spectam

OSVAC (EEZYBIRTH)

Osmonds Osvac is a tonic and laxative drink.

- A natural product for cows, ewes and other cloven hoofed animals to help assist difficult birthing and cleansing.

CLEANSING PESSARIES

- An Iodoform based pessary, for use after routine parturition and trauma related abortion to help restore good condition to the reproductive tract.

SEE PAGE 12 FOR FURTHER PRODUCT DETAILS.

MUSCLE PASTE SYRINGE

"All the pedigree Texel lambs received a dose of muscle master paste at tagging time at the age of a week old to ensure that all the lambs receive a nutritional boost of selenium and vitamin E."

S Thomas

A unique Amino Acid rich paste with the addition of Selenium & Vitamin E, formulated to the correct quantities for lambs and calves where additional muscle development is required.

- Offers a nutritional boost to the animal that is rapidly absorbed and easy to administer, essential for the profitable farming of livestock.
- Feed one full syringe (60g) to each animal as required. 30g may be fed to animals with lower risk.

AVAILABLE IN PACK SIZE:
60g syringe

ELECTRO-AID

Formulated for oral use, to help assist re-hydration and electrolyte loss associated with scours in calves and pigs.

- Can also be used in sheep to help recovery from pregnancy toxemia.

FEEDING INSTRUCTIONS:

SHEEP: Following issues in pregnancy in sheep 160ml of undiluted product may be fed directly to the Ewe using a suitable drenching bottle. Treatment should be repeated

3-6 times daily as required, alternatively 8ml per 100ml water can be used following periods of transport or stress.

CALVES: Dilute 80ml per Litre drinking water. Feed calves 200-300ml (diluted solution). If calves are scouring remove milk for 2 days, otherwise feed as normal.

Can also be fed to pigs.

AVAILABLE IN PACK SIZE:
1 litre

LAMB REVIVIT

A fast acting hyper emulsified multi vitamin concentrate, specifically formulated for new born and weak lambs.

- Fast acting due to the vitamins being hyper emulsified.
- Boosts the metabolism of the lamb.
- Helps bring round weak lambs.

FEEDING INSTRUCTIONS:

Shake well before use, feed 1ml to weak lambs in the first 2 hours of life. Very weak lambs can be fed 1ml each day up to 7 days of age. A 1 second squeeze of the bottle is approximately 1ml.

AVAILABLE IN PACK SIZE:
100ml

EFFECTIVE HOOF SOLUTIONS

Fast-acting, safe and easy-to-use footbath solution for both penned and walkthrough applications. Triple-buffered solution containing a unique blend of Chelated Minerals, Disinfectants Antiseptics, Wetting Agents and Cleansers.

HOOF-RITE ECO

Osmonds HOOF-RITE products use unique scientifically formulated formulas which are fast acting and long lasting.

- A fast-acting acting safe and easy-to-use footbath solution for both penned and walkthrough applications.
- A safe triple-buffered solution containing a unique blend of Chelated Minerals, Disinfectants Antiseptics, Wetting Agents and Cleansers.
- More effective than Formalin over a longer footbath life. The pH of the water is lowered which extends the footbath by increasing Zinc Sulphate solubility.

SHEEP INITIAL USE:
Dilute at 4% with 1% Zinc Sulphate. Footbath for 4 consecutive days = 800 Sheep Passes for 100 litre bath.
SHEEP MAINTENANCE:
Dilute at 2% with 1% Zinc Sulphate. Footbath as required = 800 Sheep Passes for 100-litre bath.
FOR SPRAY APPLICATION:
Dilute at 8% and apply daily as required.

Apply every 6-8 weeks.

AVAILABLE IN PACK SIZE:
5 litre
20 litre

HOOF RITE + SPRAY

- A fast acting, effective spot application to help toughen and cleanse hooves.
- Contains Chelated Minerals (Cu++ and ZN++) and Tea Tree Oil.
- Apply directly on to the Hoof.

AVAILABLE IN PACK SIZE:
500ml

HOOF RITE + PASTE

- A fast acting, effective spot application to help toughen and cleanse hooves.
- Contains Chelated Minerals (Cu++ and ZN++), Tea Tree Oil, Emulsifying Polymer and Liquitint Blue (colourant).
- Apply directly on to the Hoof. Apply bandage if necessary.

AVAILABLE IN PACK SIZE:
500g

We believe the best way to understand the value of our products is through the testimonials of our customers who use them every day.

"We absolutely love the Osmonds Lifesaver Calf Syringes. Each of our calves is given a syringe a few minutes after birth. We find these help to give the calves an initial boost and gives them a kick start to getting up on their feet and onto the teat."
Hitchetts Hill Limousins
J, N & W Nicholls
Pedigree Limousins

Cattle

"Osmonds Gut-Rite Bio-Probiotic Supplement makes a massive difference when the calves come in because different farmers use different milk powder, some farmers we buy calves off use whole milk & they can get quite loose & scour, so as soon as they come, we put them straight onto Gut-Rite, it's stopped all the digestive problems we've had in the past."
Richard Mottershead -
Aston Farm

"We absolutely love using Osmonds Stock Shampoo on our show cattle. Sparkling clean with that show ring shine. Very reasonable priced and smells divine. What's not to love ♥ I've even used it on the horses. Perfect all-round product"
Jamie Lee Ball - Trevowah Herd
- Pedigree South Devon Cattle

PREMIUM BRAND CALF COLOSTRUM SUPPLEMENT

"Colostrum easily to use and mixes well"
Louise C

Easily mixed powder product containing pure dried EU colostrum.

- Helps maintain a high health and immune status in new born calves.
- Contains Nucleotides - the building blocks of life to help give calves the best start in life.
- Feed to new born calves that require a colostrum supplementation.
- Easy to use, easily mixed. Use with confidence.
- Provides added health and energy maintaining nutrients.
- Guaranteed Johnes Disease, EBL, BVD and TB FREE.
- Also contains Vetoxan Bio-probiotic to enhance early digestive functions.

FEEDING INSTRUCTIONS:
 Simply add clean warm (37°C) water to the bottle contents (200g) and feed to new born calves in need of colostrum supplementation.

Feed preferably within 5 hours of birth.

NOW AVAILABLE IN SACHETS

AVAILABLE IN PACK SIZES:

- 1 x 200g sachet
- 1 x 200g bottle
- 6 x 200g bottle
- 1 kg (5 calves)
- 2 kg (10 calves)
- 4 kg (20 calves)
- 10 kg (50 calves)
- 20 kg (100 calves)

DUAL GOLD CALF COLOSTRUM SUPPLEMENT

A specifically formulated, quality Double Strength Calf Colostrum to help give calves the strongest start in life.

• Calf performance can be supported by the use of Osmonds Dual Gold Calf Colostrum Supplement especially where calves may not be receiving sufficient, good quality maternal colostrum.

- Handy to use. Easily mixed – just add warm water and shake well. Boosts energy intake.
- EBL, BVD, Johnes & TB Free.
- Also contains Vetoxan Bio-probiotic for enhancing early digestive functions alongside a balanced level of fats and proteins.

AVAILABLE IN PACK SIZES:

400g bottle
6 x 400g bottle

ELECTRO-AID

Formulated for oral use, to help assist re-hydration and electrolyte loss associated with scours in calves and pigs.

• Can also be used in Sheep to help recovery from pregnancy toxemia.

FEEDING INSTRUCTIONS:

SHEEP: Following issues in pregnancy in sheep 160ml of undiluted product may be fed directly to the Ewe using a suitable drenching bottle. Treatment should be repeated 3-6 times daily as required,

alternatively 8ml per 100ml water can be used following periods of transport or stress.

CALVES: Dilute 80ml per Litre drinking water. Feed calves 200-300ml (diluted solution). If calves are scouring remove milk for 2 days, otherwise feed as normal.

Can also be fed to pigs.

AVAILABLE IN PACK SIZE:

1 litre

PREMIUM BRAND CALF COLOSTRUM BOOSTER SUPPLEMENT

An easily mixed powder product containing pure dried EU Colostrum.

- Feed to calves that have been bred to first or second calvers.
- It is well documented that colostrum from these cows is low in health providing factors leading to increased health issues for calves.
- Helps maintain a high health and immune status in new born calves.

- Easy to use, easily mixed, use with confidence.

FEEDING INSTRUCTIONS:

Simply add clean warm (37 °C) water to the bottle contents (100g) and feed to new born calves in need of colostrum supplementation.

AVAILABLE IN PACK SIZES:

1 x 100g bottle
12 x 100g bottle

LIFESAVER CALF GEL POWDER

A fast acting powdered supplement. Contains Fibre Gel, vitamins, minerals, electrolytes, Vetoxan® and double strength health providing nutrients for calves, in particular those at risk from bacterial infections, including scouring.

- Contains Fibre Gel product and added electrolytes for increased efficacy.
- Vetoxan Bio-probiotic which helps inhibit the growth of pathogenic bacteria and stimulates the growth of beneficial alimentary tract bacteria.

- Vitamins, minerals, trace elements and amino acids which help optimise nutrient supplementation.

FEEDING INSTRUCTIONS:

Simply add warm water (37 °C) to the bottle, shake well and feed immediately.

AVAILABLE IN PACK SIZES:

1 x 100g bottle
12 x 100g bottle
1 x 100g sachet
12 x 100g sachet

FROM ONLY
£1.99 per
calf

CALF INSTA-LIFE

An all natural supplement that provides instant energy to the newborn calf to help maintain against disease factors and “jump-start” calves that are slow to start feeding.

- Boosts the calves nutrient intake to help maintain resistance from disease factors.
- Contains Vetoxan Bio-probiotic important in the establishment of an internal alimentary

environment in which E.Coli bacteria cannot grow and develop.

FEEDING INSTRUCTIONS:

Feed 25ml to “at risk” calves as soon as possible after birth. Repeat if necessary 250ml = 10 x 25ml calf feeds.

AVAILABLE IN PACK SIZES:

250ml refill (no pump)
250ml top unloading pump

LIFESAVER CALF CAPSULES

Contain double strength health providing nutrients. For those calves at risk from bacterial infections including scouring.

- Contain Vitamins, Minerals, Trace Elements & Amino Acids to help optimise nutrient supplementation
- Plus Vetoxan Bio-probiotic helps inhibit the growth of pathogenic bacteria & stimulates growth of beneficial alimentary tract bacteria.

FEEDING INSTRUCTIONS:

Feed 2 capsules to “at risk” calves within 4-5 hours of birth preferably before the calf sucks the Dam.

Bought in calves - feed 2 capsules on arrival then one capsule daily as required.

AVAILABLE IN PACK SIZES:

50 capsules
100 capsules

LIFESAVER CALF SYRINGE

Contains double strength health providing nutrients for calves, in particular those at risk from bacterial infections including scouring or with digestive upsets.

- Effective, efficient and cost effective.

FEEDING INSTRUCTIONS:

Feed one syringe (15g) to calf - preferably before the calf sucks the Dam.

AVAILABLE IN PACK SIZES:

1 x 15g syringe
25 x 15g syringe
50 x 15g syringe

“Very Handy use the syringes to treat mild cases of scour, so I always have a Lifesaver in my pocket when I walk the sheds, inspecting the calves and the cows.” **Bridgette C**

HOOF RITE ECO

NEW!

HOOF RITE+ SPRAY

HOOF RITE+ PASTE

SEE PAGE 7 FOR FURTHER PRODUCT DETAILS.

OSVAC (EEZYBIRTH)

Osmonds Osvac is a tonic and laxative drink.

- A natural product for cows, ewes and other cloven hoofed animals to help assist difficult birthing and cleansing.

FEEDING INSTRUCTIONS:

Feed full 500ml bottle of Eezybirth to a cow in obvious stress pre-calving and repeat in 2-3 hours if not calved naturally. Feed full 500ml bottle of Eezybirth to a cow with retained cleansing.

If necessary repeat in 24 hours. Do not attempt to pull cleansing free. Loss of cud could be restored by feeding 500ml Osvac to cows and other adult cattle. Repeat every 2-3 days if the animals digestive system has not returned to normal.

AVAILABLE IN PACK SIZES:

1 x 500ml
12 x 500ml

MUSCLE PASTE SYRINGE

A unique Amino Acid rich paste with the addition of Selenium & Vitamin E, formulated to the correct quantities for lambs and calves where additional muscle development is required.

- Offers a nutritional boost to the animal that is rapidly absorbed and easy to administer, essential for the profitable farming of livestock.
- Feed one full syringe (60g) to each animal as required.

30g may be fed to animals with lower risk.

- Offers a nutritional boost to the animal that is rapidly absorbed and easy to administer, essential for the profitable farming of livestock.

- Feed one full syringe (60g) to each animal as required. 30g may be fed to animals with lower risk.

AVAILABLE IN PACK SIZE:
60g syringe

CLEANSING PESSARIES

An Iodoform based pessary, for use after routine parturition and trauma related abortion to help restore good condition to the reproductive tract.

DIRECTIONS FOR USE:

After calving or lambing administer pessaries as directed below. Administer as soon as possible after parturition. Cows following calving or abortion 1-2 pessaries. Can also be used following caesareans - seek veterinary advice.

Ewes following lambing or abortion. Large breeds 1 pessary Hill sheep and Small breeds 1/2 pessary

Withdrawal period

- No withdrawal required for dairy livestock
- 48 hours for food chain livestock

AVAILABLE IN PACK SIZES:

10 pessaries
25 pessaries

ENVIROCLENZ

Effective Blend of Organic Acids and Essential Oils to assist with respiratory related problems in young cattle.

- Specifically formulated to reduce pH levels in the environment it is introduced into, thus eliminating survival of harmful bacteria. This in turn improves air quality.
- Essential product in indoor winter animal management.
- Helps reduce incidence of respiratory related problems.

DIRECTIONS:

Enviroclenz should be misted by means of an electric fogging machine or knapsack sprayer into the animal housing twice weekly during the “at risk” period. Dilute one litre of Enviroclenz to 5 litres water before use.

MUSCLE MASTER DRY BLEND

All natural product containing high levels of amino acids, vitamins, minerals and trace elements to help maintain better muscle properties.

- Provides a high intake of nutrients and slows down the digestion of feed allowing maximum nutrient utilisation.
- Helps produce a high health status which in turn produces better muscling and grading properties alongside more efficient performance.
- Contains Diamond V Yeast - well documented digestive and fermentation properties.
- Helps produce more profitable livestock.
- Ideal for show/sale animals.

FEEDING INSTRUCTIONS WITH EVERY FEED:

PEDIGREE CATTLE FOR SHOW/SALE & BULLS: 25g

DAIRY COWS: 20-25g

CALVES: 10-12.5g

LAMBS: 10-12.5g

PEDIGREE SHEEP FOR SHOW/SALE: 20g

GOATS: 5-10g

FOALS, PONIES, DONKEYS: 10-12.5g

SHOWJUMPERS, EVENTERS, RACEHORSES: 25-50g

DOGS: (dependent on size) 2-12.5g

AVAILABLE IN PACK SIZES:
5 kg, 10 kg, 25 kg

"Another great product from Osmonds Calves were straight in eating there meal with Muscle Master mixed in and can see how it made a huge difference in them then are looking great and can see the muscle firming up and expanding truly great product and would highly recommend" Ian H

NEW!

CALMING PASTE SYRINGE

An oral paste that helps provide a calming effect during stressful events, naturally. Formulated with Tryptophan & Magnesium well known for their de-stressing properties.

Feed 60-90 mins before the event / activity that requires calm. Can also be fed at times when stress triggers can occur e.g. loading animals into trailers.

FEEDING INSTRUCTIONS:

CATTLE: 1 syringe (30g)

CALVES: 5g

HORSES: 1 syringe (30g)

SMALL BREED SHEEP: 4g

LARGE BREED SHEEP: 6g

ALPACAS: 6g

CONTAINS	
Vitamin B1	3g
Vitamin B2	300mg
Vitamin B6	200mg
Pantothenic Acid	200mg
Nicotinamide	200mg
Folic Acid	200mg
Vitamin E	20,000iu
Tryptophan	150mg
Magnesium	4g

General Healthcare

VACCADYNE

The Original Vaccadine - Effective Red Udder Grease.

- Original formulation product. - tried and tested for over 100 years.
- A formula of natural cleansers and moisturisers.
- Gentle action helps protect udders and teats - massage gently into udder as required.
- Helps protect against flies and infection when tagging, de-horning etc.

- Effective healing properties. when used on cuts or abrasions
- Excellent also for use on cracked hands and skin.

AVAILABLE IN PACK SIZES:

- 450g
- 900g
- 2 kg

GUT-RITE

An extremely effective probiotic type product to help maintain a healthy digestive system.

- Contains Vetoxan Bio-probiotic to help maintain healthy digestive tract bacteria.
- Contains Nutrimin® to remove any build up of toxins from the system and to slow down the passage of feed.
- A valuable aid to stock-people when showing, travelling or selling livestock.

- Contains added electrolites to help effective recovery. Ideal for any feeding or gut problems caused by stress, travelling etc.

AVAILABLE IN PACK SIZES:

- 750g
- 1.5 kg
- 5 kg
- 10 kg

“I have found it most beneficial for stabilising the digestive system and gut of my goats. Particularly effective when they are under stress during travelling, showing, kidding, are on any antibiotic therapy or have insufficient appetite. A must have essential in my storage chest” R Earl

PURPLE BACTAKIL 55

Osmonds best selling product with Gentian Violet for identification.

- Unique combination of broad-spectrum biocides.
- Helps maintain freedom from bacteria, fungi and algae and their associated health problems from the feet to the face.
- Effective against microbial spores thus helping prevent re-contamination.
- Can be used on navels.

DIRECTIONS FOR USE:

One spray to run-off should suffice. Procedure may be repeated at 7 day intervals if necessary. Consult vet if symptoms persist.

Withdrawal period

- 7 days for dairy livestock
- 28 days for food chain livestock

AVAILABLE IN PACK SIZES:

- 750ml spray
- 5 litre refill

“Purple Bactakil - very good product works well easy to use” Richard E

BACTAKIL 55

Osmonds best selling product - used by generations of farmers.

- Unique combination of broad spectrum biocides which helps maintain freedom from bacteria, fungi and Algae and their associated health problems from the feet to the face.
- Effective against microbial spores thus helping prevent re-contamination.
- Can be used on navels.

DIRECTIONS FOR USE:

One spray to run-off should suffice. Procedure may be repeated at 7 day intervals if necessary. Consult vet if symptoms persist.

Withdrawal period

- 7 days for dairy livestock
- 28 days for food chain livestock

AVAILABLE IN PACK SIZES:

- 500ml spray
- 1 litre spray
- 5 litre refill

“Used this for years on scald, strike and lately orf which it cleared very quickly, highly recommend” Anne Harvey

SHAMPOOS & CONDITIONERS

- **Coconut Oil Shampoo** - contains moisturising coconut oil.
- **Lavender Shampoo** - contains relaxing lavender oil.
- **Black Velvet Shampoo** - helps enhance black & dark coats.
- **Polar White Shampoo** - helps enhance white & light coloured coats.
- **Tea Tree Shampoo** - ideal for dry & sensitive coats.
- **Luxury Shampoo** - leaves coats with a high sheen.
- **Red Shampoo** - excellent cleaning properties, tough on urine & grass staining.
- **Creme Rinse Conditioner** - excellent for matts & tangles and to re-introduce moisture to the coat.
- **Show Coat Luxury Coat Conditioner** – great for brushing and detangling. Can be used on wet or dry coats.

ALL SHAMPOOS AND CRÈME RINSE CONDITIONER AVAILABLE IN PACK SIZES:

SHOWCOAT LUXURY COAT CONDITIONER AVAILABLE IN PACK SIZES:
500ml spray, 1 litre, 2.5 litre, 5 litre

SLURRY BOSS

- Helps promote breakdown of solids and smells.
- Helps reduce toxic gas and odour production thus dramatically reducing smells.

- Breaks down solids making slurry easier and less expensive to mix, pump and spread.
- No bacteria or enzymes. Non-toxic at recommended dilution.
- Easy to apply, cost effective. Contains Copper in a highly soluble form which is not precipitated - interacts with enzyme systems of the millions of bacteria present in Slurry activating some and inhibiting others.
- pH of Slurry must be between 5.5 and 7.5 - best results obtained at pH 6.5.
- Helps make slurry bacteria more efficient.
- Adding Slurry Boss should ensure your spreadable slurry will be in the region of 20/21-10-10.

DIRECTIONS FOR USE:
Check pH of Slurry to ensure between 5.5 and 7.5. Multiply the length x depth x width in metres of the Slurry Pit to get the usable volume in cubic metres. Divide this figure by 60 to get the amount in litres of Slurry Boss required. Slurry Boss may be applied neat or diluted with one or two volumes of clean water. Add directly to the liquid portion of the Slurry (i.e. under the Crust) In large facilities add in several locations again ensuring added to liquid portion. One litre of Slurry Boss is sufficient for 60,000 litres of Slurry.

AVAILABLE IN PACK SIZES:
5 litre
20 litre

BAC TO NATURE SLURRY TREATMENT

A synergistic blend of naturally occurring beneficial micro-organisms combined with a unique carrier and delivery system.

- Controls odour emissions.
- Reduces crusting and solid build up.
- Improves slurry fertiliser value.
- Can reduce possibility of slurry damaging (scorching) land to which it is applied.

- When used inside animal housing can help reduce ammonia and other problem gases thus assisting improvement in stock growth rates.
- Traps and breaks down anaerobic gases e.g. Ammonia, Hydrogen Sulphide and other Mercaptans present in raw slurry.
- Organic chemical salts in the anaerobic waste e.g. nitrates and phosphates are broken down and oxygen released creating an aerobic environment.
- Aerobic micro-organisms in the Slurry Treatment flourish and perform aerobic digestion of the waste resulting in cessation of anaerobic gases production and thus maintaining odour control.

land thus helping re-establish beneficial soil micro-flora and enhance the organic structure of the soil.
• Can be used in slatted housing, storage tanks and lagoons.

DIRECTIONS FOR USE:
50 litres of product will treat 100,000 gallons / 454,600 litres Slurry (it is recommended for initial applications to double the above treatment rate) Bac to Nature Slurry Treatment is supplied in 25 litre drums.

AVAILABLE IN PACK SIZES:
25 litre
50-100 litre
125-250 litre
275-500 litre
525-750 litre
775-1000 litre

ORIGINAL STOCK SHAMPOO

All natural shampoo used by generations of stockmen and women to create brilliant shine on show animals. Low lather shampoo.

AVAILABLE IN PACK SIZE:
5 litre

MORRIS EVANS OILS

Original Morris Evans formulation - used by generations of farming families.

AVAILABLE IN PACK SIZE:
500ml

- Variety of uses from Maggots to skin problems - always test a small area with the product before general usage.

DRY
DISINFECTANT

ZENOSAN

Broad spectrum powdered disinfectant and Ammonia Neutraliser.

- An anti-viral, antibacterial and anti-fungal disinfectant powder.
- Enhances environment by lowering the levels of ammonia and other noxious gases thus promoting healthier and more profitable livestock.
- Helps minimise the activity of disease causing microorganisms.
- Helps reduce the challenge to livestock from bacteria, viruses, fungi and moulds.

“Excellent product, been using it for a few years in my goat shed” **Victoria H**

APPLICATION RATES:

CATTLE BEDDING AND CALF PENS
COWS: 75g per cow in the lying area weekly.

CALVES: 50 to 60g per calf per daily for 3 days then weekly.

GROWING CATTLE: 60g to 100g per animal in their bedding when added.

SHEEP: Apply at rate of 50g/ square metre in lambing pens after each ewe lambs or in pre and post lambing pens as required.

Can also be used in Stables, Kennels & Catteries, Small Animal Cages & Rabbit Hutches.

ODO-LESS SEPTIC TANK & CESS PIT REGULATOR

An all natural odour eliminator to recharge non- functioning pits and tanks.

- 100% Natural and Organic - Safe to the Environment.

Please note: Do not use any chemicals e.g. Bleach, Disinfectants etc when the Tank or Pit is inactive when Osmonds Odo-Less Septic Tanks & Cess Pit Regulator is being used as this will impair the performance of the product.

INSTRUCTIONS:

Flush contents (1 litre) down the toilet - repeat process if found necessary.

AVAILABLE IN PACK SIZE:

- 1 litre

Est. 1854
Osmonds
Animal Nutritionists & Veterinary Suppliers

Can Osmonds Muscle Paste be fed from birth?

Osmonds Muscle Paste was formulated to be administered at weaning, however, if a Selenium deficiency has been identified within your flock/herd, this can be fed at 1-2g (depending on the animal's size/weight) every week for the first 4 weeks from birth at your own discretion.

How often should I drench my Sheep & Cattle?

As a rule of thumb for general health & well-being, we advise you to drench your animals every 4-6 weeks.

Pre-tupping – 7-10 days before tupping is our recommendation, however, many of our customers have reported great success drenching 4 weeks before tupping with a second dose given 4 days prior.

Oviboost & Boviboost have the highest concentration of Vitamins, Chelated Minerals & Trace Elements, making them our premium, gold standard drenches!

Can I use Osmonds Bactakil 55 on Ringworm or/and Orf?

Many livestock owners have told us they use **Bactakil 55** to help manage a range of skin issues, including Ringworm and Orf. To use, apply the product to a clean, dry cloth and gently dab it onto the affected area, avoiding the eyes, nose, mouth, and any sensitive areas. Allow the area to dry naturally. If needed, a second application can be made after 7-10 days.

Important: Do not use on the udders of nursing livestock. Please remember this product is for professional use only, knowledge of biocides is essential before purchasing.

What's the difference between Osmonds Sustain & Osmonds Lamb Insta-life?

We first formulated **Sustain** as a specific preventative for Watery Mouth at a 4ml dose, we were then asked continually for a product for boosting lambs, but to ensure that customers continued to use the stronger 4ml dose to help prevent Watery Mouth, we thought the best option would be to re-market the **Lamb Insta-Life** as a booster at a lesser 2ml dose, this ensured optimum value for the customer; to make sure they weren't under / overfeeding for specific purposes.

We're Here to Help

LIVESTOCK 101 – Quick Reference Guide

Q: I'm worried about Watery Mouth in my lambs

A: Osmonds recommends Sustain – The natural alternative to Spectam Halt!

Q: I need to build muscle on my Show Livestock

A: Osmonds recommends Muscle Master Dry Blend – it's 100% natural & competition legal, where science meets results... that's why we call it our 'Beast of a Backend Builder.' The results speak for themselves & it's our best-kept secret in showing.

Q: I'm looking for an eco-friendly hoof solution

A: Osmonds recommends Hoof-Rite Eco Footbath Concentrate – an eco-friendly, science backed, farm trialled formula that promotes healthy hooves without the use of harsh chemicals. Keep your livestock's feet in top condition.
